Canes Course Pack Program Information

The Canes Course Pack provides students with access to their required course materials at the start of each semester. The Canes Course Pack allows the University to reduce student course material costs compared to traditional print text. It ensures every student can access their course materials on or before the first day of class. Undergraduate students are automatically enrolled in the Canes Course Pack when they register for their courses. This enrollment will provide students with the required class materials for one low, flat fee. Course materials will be provided to the student in digital or physical format, with digital materials provided when available. Print materials do not need to be returned at the end of the semester.
